Figure 1A

Figure 1B

Figure 1 is a graph showing the relationship between Inversion Cap Noise ($V_{cc}-V_1$) on the X-axis and Depletion Cap Noise ($V_{cc}-V_2$) on the Y-axis. The X-axis ranges from -0.20 to 0.20, and the Y-axis ranges from -0.25 to 0.25. A series of data points (diamonds) form a straight line passing through the origin (0,0). A vertical dashed line is labeled "ISO-AREA" at approximately $X = -0.05$. A horizontal dashed line is labeled "ISO-VALUE AT V_{cc} " at $Y = 0$. A point on the line is labeled "103" with a bracket indicating its X-value is approximately -0.10.
